

Test Accessories for the Pc-Check® Diagnostic Suite

Conclusive peripheral testing with diagnostic test accessories....

 Test Accessories are designed to universally support the peripheral test selections within the Pc-Check® diagnostic suite and PC Builder™ Test Management Suite.

 Test Accessories validate all USB, Serial, Audio and Network ports and media tray operations.

 Test Accessories ensure completion of peripheral tests during diagnostic operations for Proof-of-Service report recordation.

Comprehensive Coverage

 Test Accessories actually prove your operation's thoroughness by testing the entire PC, including ports and trays. Whether in PC manufacturing, refurbishing, or break-fix services, Eurosoft Test Accessories ensure reliability and provide documented proof of testing.

Versatile Usage

 Widely used on installed systems, desktops, gaming, industrial, and portable devices, each Test Accessory compares hardware peripherals with diagnostic tests for continued usage. Extend and enhance your test procedures with Eurosoft's proven PC Diagnostic Programs and unique test accessory hardware. Each accessory is specifically developed to work with Eurosoft's test programs, providing independent and reliable test results for peripheral ports and media devices.

Why Testing Matters

 Test Results...Testing PC components like memory, CPU, GPU, and storage is crucial for hardware reliability. Equally important is testing external ports such as USB, serial, audio, and network ports. Often forgotten, peripheral devices including printers, external hard drives, and cooling fans rely on functioning USB ports. Additionally, numerous electronic devices, such as Android phones and portable media devices, use USB ports for charging and operation. Despite the rise of Bluetooth-enabled sound systems, most external audio systems and headphones still depend on fault-free audio ports.

Complete your hardware diagnostic coverage, and full proof your test reports with Eurosoft's computer diagnostic test accessories.

Test Accessories provide important complementary testing for the software diagnostics Pc-Check UEFI, Pc-Check Windows, Pc-Check and PC Builder plus all associated products, Pc-Check Windows® + ZeroData Windows, all Test Experts Bundles, and the support tool Pc-Check MultiMode.

Eurosoft PC Test Accessories include: USB Preferred Port Plugs™, Serial Loop-back Plug, Audio Test Cables, DVD Test Discs™, Network Test Plug and the USB A-C and B-C Extenders.

Thousands of PC manufacturing and service organisations throughout the world have adopted Eurosoft's diagnostic and test management solutions, taking advantage of the Test Accessories to complete the analysis of each hardware peripheral point.

Eurosoft's computer Test Accessories build on your reputation and provide the report to prove it.

Test Accessories complete the analysis of each hardware peripheral point during diagnostic use

USB Port Test Device—Directly test USB ports with dedicated tests.

Network Loopback Plug—Directly test network ports with dedicated tests.

USB A to USB C Adaptor— Supports PCs with USB C only ports.

USB Extender—Extend the life of your USB Program Device.

Audio Test Cable—Directly test audio ports with dedicated tests.

Serial Loopback—Directly serial ports with dedicated tests.

DVD Test Disc—Directly test DVD drives with dedicated tests.

CDROM Test Disc—Free CDROM burn instructions to directly test CDROM drives.

Test Accessories complete the diagnostic process, giving a full view of reliable or failing ports and trays.

Computer manufacturers and service teams globally count on the test accessories for wider hardware analysis delivered by Pc-Check and PC Builder solutions.

Test Accessories carry your diagnostics deeper, achieving the most comprehensive coverage possible.

Supports over 50 dedicated diagnostic tests

Contained within 4 diagnostic solutions

Pc-Check UEFI Service Report

Test Accessories

Engineered to work directly with the Pc-Check and PC Builder diagnostic solutions, extending testing capability of available ports and trays, maximizing full device reliability.

The Eurosoft USB Program Device (left image) are separate from the Test Accessories. They are provided to secure, use and update your diagnostic programs. Additionally, the USB Program Devices also function as a USB port test device just like the dedicated Eurosoft USB Test Device.

Ready to try test and data erasure tools that support your business?

Solutions for an ever changing landscape...

Computer manufacturing and system integrating rely on diagnostics to form standard test practices. Repair, services and support are blending with field technicians, backing MSP's who remotely manage all varieties of computers. Critical assessment of systems situated publicly: government, military, education, healthcare, as well as private verticals expect compliant, running systems. Refurbishing has taken off, extracting re-workable components to balance a broad eco-system, recycling where they can't. Everywhere, demand for reliably running PCs is required and expected.

Manufacturing and system integrating of all sizes, building new PCs of all kinds, use the PC Builder™ Test Management Suite and Pc-Check® diagnostic suite to validate hardware and configurations prior to investing time in loading operating system. Pc-Check UEFI Embedded during production adds essential remote testing before shipping.

Refurbishing for trade, re-manufacturing, repurposing, ITAD, and leasing PCs, use several tools. Portable Pc-Check® diagnostic suite and the PC Builder™ solution quickly and reliably validate inbound and outbound hardware assets for suitability of reuse, upgrading, re-imaging. Eurosoft's ZeroData™ Windows® storage drive erasure software is used in process or portably for secure and compliant data wiping.

Servicing has a wide commitment, bringing consumers and industry closer to the upgrading and repair process. The full Pc-Check® diagnostic suite brings portable testing with pre-boot options, multiple script creation, and recordation, reaching a variety of diverse PC customers. ZeroData™ Windows® offers portability and security to safely wipe customer PCs anywhere.

Support involves personal and remotely available technical sessions. Break-fix callouts and in-store warranty review, preventative maintenance, and rapid diagnosis to remediate downtime. Each Pc-Check® hardware diagnostic program gives fast and flexible hardware assessment. ZeroData™ Windows® securely clears data ensuring a variety of global compliance.
