

## Pc-Check® Windows® Computer Diagnostic Software

**Pc-Check Windows provides an entire new set of tools and applications.** Fully compatible with Windows 10 and UEFI hardware, components are reliably validated in the environment in which they are used.

Reliable hardware tests you can count on.

Developing intricate computer diagnostic software – because other hardware tests miss them completely – Pc-Check Windows is NEW and its indispensable. Count on a continued flow of reliable test results whether building, installing, supporting or servicing computers. Pc-Check Windows now offers greater support for testing multiple devices under the latest Microsoft operating systems.

Eurosoft has helped to find millions of computer failures since 1980. No exaggeration!

### Pc-Check® Windows® features

### Benefits for You

#### NEW NVMe test group

Test the latest high speed SSD drives, typically found in a server environment, using high-bandwidth Non-Volatile Memory Express bus technology.

#### NEW battery life and charge tests

Identify worn and faulty batteries by testing the current charge level, and comparing the estimated charge capacity against the manufactured charge capacity for battery life degradation.

#### Enhanced hard drive monitoring

Updated monitoring of disk health status including running temperature and S.M.A.R.T. attributes, which can help you anticipate hard drive failures and prevent data loss.

#### Enhanced processor testing

Keep your testing up to date with support added for the latest Skylake-X, Kaby Lake-X, and Ryzen processors from Intel and AMD.

#### Enhanced scripting settings

Provides more flexibility on how skipped and aborted tests are recorded and presented in testing reports.

### Latest Hardware Support

- Intel Skylake-X and Kaby Lake-X processors
- AMD Ryzen Threadripper, Ryzen 5, and Ryzen 3 processors
