

Pc-Check® Windows® V3.0.1.77

Pc-Check Windows — an entire new set of testing tools and applications. Fully compatible with Windows® 10 and UEFI hardware, all system components are validated in the environment in which they are used. Dependable hardware tests, giving you reliable PCs.

Developing intricate computer diagnostic software – because other hardware tests miss them completely – Pc-Check Windows is indispensable. Count on a continued flow of reliable test results whether building, installing, supporting or servicing computers. Pc-Check Windows now offers greater support for testing multiple devices under the latest Microsoft operating systems.

Eurosoft has helped to find millions of computer failures since 1980. No exaggeration!

Combine Pc-Check® Windows with the ultimate bare metal testing solution Pc-Check® UEFI and Pc-Check® for legacy and new UEFI based PCs, expanding your range of diagnostics to a perfect 3-point test plan.

Pc-Check® Windows® features	Benefits for You
NEW NVidia CUDA video card tests	Tests include CUDA Bandwidth, CUDA Walking Zeros, CUDA Walking Ones, CUDA Moving Inversion, CUDA Integer Logic (Local Memory), CUDA Random, CUDA Modulo, CUDA Compute and CUDA Stress.
NEW Server Test Group	Report on a servers overall condition by collecting Event Log, Health, Sensor, and Alarm information using the Intelligent Platform Management Interface.
Enhanced system health monitors	Quickly determine component status by selecting the display of different sensors for processor, graphic cards and motherboard.
Enhanced processor testing	Keep your testing up to date with support added for Intel Generation 9 processors, Intel Coffee Lake desktop and mobile CPUs.
Enhanced memory testing	Memory mismatch tests system wide memory references, to detect memory slots Windows has misidentified or been unable to register.
Enhanced testing parameters	Greater testing flexibility, select CPU highest or lowest temperature setting for motherboard testing, and set minimum charge capacity for battery testing.
Enhanced USB testing	Determine port functionality by detecting the specified number of Eurosoft USB Test Devices.
