

ZeroData™ Windows® V1.2.0

Eurosoft ZeroData™ Windows® **permanently, safely and securely removes all of the data on storage devices** exceeding the data destruction levels specified by major organisations and Government bodies for PC reassignment, upgrades, refurbishment, ITAD, recycling and donation.

Increased storage of sensitive personal and commercial data along with the increase in reused or recycled IT equipment, has driven the need for permanent data erasure of hard drives and other storage devices – Zero Data Windows is NEW, it's fast and it's indispensable.

Reliable, total data cleaning is a requirement — ZeroData solves the need — and gives a full certificate, reporting all drives erased or not.

Conforming to **GDPR, government, military, NIST and ISO/IEC standards** you can trust ZeroData Windows to provide the proof you need of permanent erasure demanded by compliance standards worldwide.

ZeroData™ Windows® features

Benefits for You

| | |
|---|--|
| Runs in Windows® operating system | Compatible with Windows® 7 and above operating systems. Including Windows PE for self-boot operation or integration with PC Builder™ for automated drive erasure. |
| NEW Wipe all drive formats | One tool is all you need. Wipe data from RAID, SCSI, SATA, SAS, SSD, NVMe, IDE, and removable storage devices. Includes specific erasure methods for SSD. |
| NEW Multiple security options available | Select the required erasure method. Meet or exceed data destruction levels specified by major organizations and Government bodies. Including current NIST 800-88 Rev.1 & ISO/IEC 27040:2015 methods. |
| NEW ATA/SCSI/SAS/NVMe firmware erasure methods with added verification | Wipe data in minutes, not hours. Use hard disk inbuilt erasure commands and confirm data erasure on completion. |
| NEW Digitally signed reports | Provide an audit trail to show data erasure compliance with tamper proof digital report signature. Includes date, time, and erasure method used. |
| NEW Disk health report | Confirm drive S.M.A.R.T. status prior to erasure to quickly determine suitability for recycling or repurposing the storage device. |
| NEW erase multiple drives simultaneously | Fast, efficient data wiping for PCs with more than one storage device. Wipes all installed drives simultaneously instead of sequentially. |
