

Pc-Check® Windows® V3.0.2.90

Pc-Check Windows — an entire new set of testing tools and applications. Fully compatible with Windows® 10 and UEFI hardware, all system components are validated in the environment in which they are used. Dependable hardware tests, giving you reliable PCs.

Developing intricate computer diagnostic software – because other hardware tests miss them completely – Pc-Check Windows is indispensable. Count on a continued flow of reliable test results whether building, installing, supporting or servicing computers. Pc-Check Windows now offers greater support for testing multiple devices under the latest Microsoft operating systems.

Eurosoft has helped to find millions of computer failures since 1980. No exaggeration!

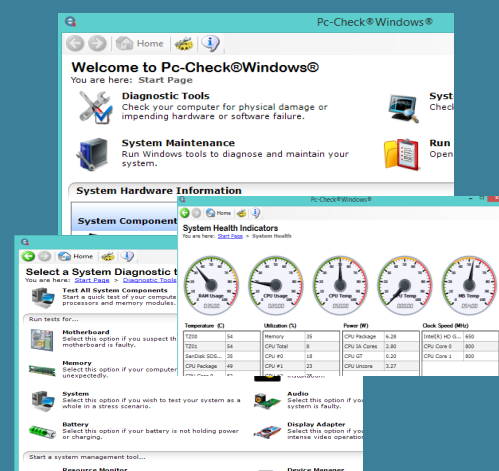

Combine Pc-Check® Windows with the ultimate bare metal testing solution Pc-Check® UEFI and Pc-Check® for legacy and new UEFI based PCs, expanding your range of diagnostics to a perfect 3-point test plan.

Pc-Check® Windows® features	Benefits for You
NEW Touchscreen tests	Improved touch screen test coverage. New tests for Touch Gesture, prove support for multi-touch, ghost touches and driver/OS support for primary and secondary touch points required for gestures. Test for intermittent detection drops, and Pen/Finger test variants.
NEW Server hardware monitor style tests	Using the Intelligent Platform Management Interface, report on Event Log, Health, and Sensor log failures. New independent tests added for Power, Temperature, Fan, Voltage, and Constant Sensors.
NEW Convertible test	Confirm that tablets and laptops behave in the expect way when docking or undocking.
Updated CPUID information	Keep your testing up to date with support added for Intel Intel 9400F, 9600KF, 9700KF and 9900KF Xenon Gold 6240 chip sets, AMD APU Ryzen Picasso, DDR4 SDRAM chips manufacturer, and AMD Radeon VII (Vega 20) NVIDIA GTX 1660 and 1660 Ti GPUs
Enhanced Stress testing	Reworked stress tests provides greater responsiveness under highly intensive stress test situations.
Enhanced Graphics card testing	Now includes an OpenCL test for video cards that support the framework.
