Pc-Check® UEFI v1.04

Awesome reminders, only Eurosoft do these…

Pc-Check UEFI diagnostics identify your hardware failures – *precisely*. Unlike other so called UEFI diagnostics, Pc-Check® UEFI diagnostics directly access and test essential UEFI components, regardless of BIOS or brand. **NO operating system in the way – NO Linux, NO Windows, NO secure boot issues – only UEFI testing in pure native mode.**

Test more memory, drives and CPUs like no other diagnostic tool – remarkable **256 DIMM up to 2-Exabytes memory**, and '**Multi-Exabyte' drives**, plus **1024 'Kilo-core' CPU** packages and *more tests coming…*

1st place – Longest running diagnostic company – 40 years – with spectacular results from our Microtopology memory testing, and the original 'self-boot' capability in 1986!

By Customer Request, *simplified Advanced Scripting options*.

Now you can start testing immediately with Advanced Scripting options.
Pc-Check UEFI now offers greater support for testing multiple devices in a native 64bit UEFI environment with easy to use scripts.

READ ON… 37.7% FASTER MEMORY TESTING… for more great new PC testing updates every business can benefit from today!
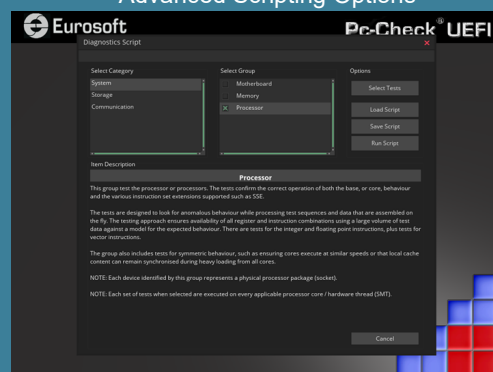

Pc-Check® UEFI features	Benefits for You
NEW Touch screen test	Wider test coverage of touch screen devices. Interactive test expands on touch control feature to provide confirmation of accurate response across the whole device.
NEW Keyboard Test	Perform an interactive test to determine various keyboard conditions: The test guides the operator through the keyboard registering key switch operation success. Includes 5 popular templates.
NEW Mouse Test	Quick, distinctive test displaying working function with red in process and green in testing executions.
NEW Keyboard Editor	Systems can have a wide range of PC keyboard layouts, especially different portable devices. Freely adapt the included keyboard templates to fit most requirements and provide testing efficiency. Alternatively, contact us for design services.
NEW System Variables (NVRAM)	Everything you needed to know about the Non-Volatile memory, including boot information and installed digital certificates.
NEW SMBIOS Information	Detects and displays latest BIOS details on a UEFI platform.
NEW PCI Information	Find detailed information about all installed PCI devices, displayed according to the actual bus topology.

Pc-Check® UEFI features	Benefits for You
Real Time Clock test update	Enhanced testing, reducing sensitivity based on field feedback.
SUPER Enhanced FASTER Memory testing	Remodelled Eurosoft Microtopology memory test is now **37.7% faster.** Ideal for finding intermittent and noise related issues.

Pc-Check® V8.09 Notes:

REMINDER – Pc-Check (Self-boot original aka EuroDOS) is included alongside Pc-Check UEFI diagnostics to test legacy PCs and those that you can still disable Secure Boot if desired.

Pc-Check now runs longer durations or laps, and on multiple device systems more reliably with the following items deprecated to reduce the overall memory operating size, allowing the execution of the tests on a wider range of hardware especially where multiple processor/Hard Drive/Memory systems are being executed: Parallel port, Firmware/ACPI, USB Functionality/Device Information, Network.

Additionally, Pc-Check has defaulted the /PL (Processor Limit) to 32 (/PL=32) ; To ensure latest CPU's are suitably covered without any user interaction.

Including the original Pc-Check® Self-boot, Pc-Check UEFI offers the ultimate 'bare-metal' testing solution.

Combine with Pc-Check® Windows expanding your range of diagnostics to a perfect 3-point test plan.

///

Developing intricate computer diagnostic software – *because other hardware tests miss them completely* – **Pc-Check UEFI is indispensable**. Count on a continued flow of reliable test results whether building, installing, supporting or servicing computers. Pc-Check UEFI offers the greatest support for testing a multitude of new or legacy devices outside of the operating system. **Eurosoft has helped to find millions of computer failures since 1980. No exaggeration! Celebrating 40 years — with success from our exceptional customers.**

*Keyboard, mouse and touch testing require UEFI firmware support. Some BIOS may exhibit known issues that limit test function.
