Pc-Check® Windows® Diagnostic Software

Pc-Check Windows challenges the widest testing landscape with Windows and WinPE based testing, dedicated to all your PC assembly, integration, services, installations, repair and refurbishing.

Unreliable testing of computers cost companies and technicians valuable time and money. Inaccurate test results impact operations, leading to more technical support calls, unnecessary rework, product returns and customer dissatisfaction. Proof of build and service has now become a requirement.

Pc-Check® Windows® has a testing advantage with Windows-based computers. Fully compatible with **Windows 10 and UEFI hardware, booting WinPE**, ensuring components from a PC and Mac® are reliably validated in the environment in which they are used. Pc-Check Windows computer diagnostics give you the stress testing you expect, but more to the point, they give you absolute knowledge of hardware conditions **–** results you can count on. Proven diagnostics, capable of assisting all sizes of companies and skill sets, loads of testing features and unlimited ways of using them.
Pc-Check Windows is the answer to solving your testing dilemmas – "do I release, repair, repurpose, refurbish or replace?". Enhance your service reliability and computer quality, decrease technical support telephone calls, and improve customer satisfaction and confidence. **Pc-Check Windows finds the hardware faults that other test products can't *or won't* reveal.**

Powerful, testing under Microsoft® Windows®	✔ Test all **Windows dependent hardware: such as webcams, 3D Graphics, wireless network devices,** and more.
Test UEFI enabled hardware in Windows®	✔ **Full UEFI testing on all the latest Windows® PCs,** 64Bit hardware. No need to disable Secure Boot.
Integrate 3rd party UEFI tools	✔ Thoroughly test PC hardware **before launching BIOS flashing or DMI tools in the same session.** No need for multiple media or programs.
Scripted or selected: System Stress test and Burn-in test, Duration, any Number of passes	✔ Test hardware parts, as specialist test groups or with unlimited scripting capacities. **Total control of your diagnostic process**. Reveal hard-to-find intermittent errors.
Test the fullest range of installed components and storage	✔ **Unlimited Memory DIMM reporting;** and **2-Exabytes drives; plus CPU packages to 1024 to 256 core and more** in Windows.
Unattended testing, launch scripts automatically, upon startup	✔ Test PCs without users involved, **no mistakes in tests deployed, consistent, repeatable results.**
Create, and test PCs and Macs from self-booting WinPE media	✔ Test PCs, even Macs before you install the operating system.

Use Windows®-based tests to fully validated UEFI enabled components as well as non-UEFI hardware
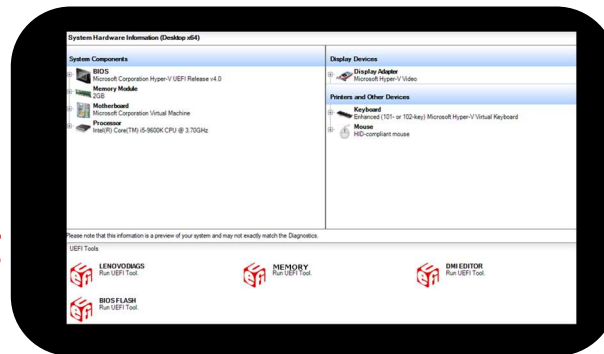

Blue Screen Of Death Test

Session Log of Test Results

NVMe Idle Temperature

500+ Tests

31 Test Groups

Unlimited Scripting

Add Unlimited UEFI Vendor Tools

Test PCs and Macs outside of Windows and Linux® with USB Booting WinPE

'WinPE Image Creator' application prepares custom, self-booting WinPE test media.

Use Windows Preinstallation Environment (WinPE) with Microsoft OEM / SDK license

Variable Media and Settings

Create WIM, ISO and WinPE Bootable USB.

Utilize Microsoft ADK version 8.1 /10.
Customize image settings for image type, region, and more.

Unlimited script and image builds.

Create and Automate Test Tools

Add 3rd-party vendor tools such as BIOS and DMI. Create different diagnostic test routines for manufacture, refurbishing, service and support.

Fully networkable, allows deployable and remote testing sessions.*

Network drive logging for connectivity and distribution of test result files.

Maximize profits by reducing hardware return costs

• Reduce asset identification, assembly, upgrade, and repair test workloads.

• Reduce returns and repairs.

• Reduce support calls.

• Increase profitability by improving PC reliability during system manufacturing integration, installation, upgrading and servicing, repairs and refurbishing.

Control and contain errors

• Reveal hard-to-find intermittent errors.

• Log faults and unreliable computers.

• Deploy tests, operations' wide, for maximum consistency.

Increase throughput by reducing human errors

• Standardized test scripts control unauthorised users and test usage.

• Remotely coach technical support with simple Pc-Check test script experience.

Microsoft Windows Support

• Windows 7/8/8.1/10.

• Windows® Preinstallation Environment **(WinPE- 32bit and 64bit editions)** with Microsoft OEM license.

• Server 2003/2008(R2)/2012(R2) for remote deploy* and PC Builder license.

• UEFI enabled hardware.

• Standalone, bundle, deployable diagnostics.

*Site License required.

Diagnostic coverage for all major hardware groups in a native UEFI pre-boot, Self-Boot and Microsoft Windows or Microsoft Windows Preinstallation Environment.

The test groups or tests noted in BLUE require a full Windows environment. Example (see above for all): Video | Biometric Devices | Capture Card* | Network Interface tests for wireless network interfaces | System Sleep Test | System Hibernate Test | Battery Voltage Test | Server Group | Sensors   *Generic Capture Driver Test available in Microsoft Windows Preinstallation Environment (WinPE). Eurosoft test accessories required for peripheral ports and media trays: USB, serial, audio, DVD/CDROM. Mac® Boot Camp® drivers required in WinPE or use Pc-Check® WinPE Image Creator build tool without drivers (all tests non-native, Intel Architecture only). 3rd-party vendor tools must be UEFI compatible.

Who Uses the Pc-Check® Diagnostic Software Suite?

Solutions for an ever changing landscape...

Testing PCs has financial reward. Starting with a series of simple test steps, you gain immediate cost savings.

Computer manufacturing and system integrating rely on diagnostics to form standard test practices. Repair, services and support are blending with field technicians, backing MSP's who remotely manage all varieties of computers. Critical assessment of systems situated publicly: government, military, education, healthcare, as well as private verticals expect compliant, running systems. Refurbishing has taken off, extracting re-workable components to balance a broad eco-system, recycling where they can't. Everywhere, demand for reliably running PCs is required and expected.

Ensuring reliability requires quality testing. The Pc-Check diagnostic suite takes on the widest testing landscape, instilling quality, combining bare-metal UEFI and legacy testing, plus Microsoft Windows/WinPE too. The end result: components are reliably tested and validated independent of the operating system [and] within the Microsoft Windows environment whether new or old devices. Proven diagnostics, capable of assisting all sizes of companies and skill sets, loads of testing features and unlimited ways of using them. **Testing brings reward**.

Manufacturing OEM/ODM System Builders Assemblers System Integrators	**Manufacturers and system integrating of all sizes, those who build fresh and new, use the PC Builder Test™ Management Suite and Pc-Check® diagnostic suite to validate new hardware and system configurations prior to investing time in loading an operating system, and shipping to the channels.**
Refurbishing Microsoft Authorised Refurbishers ITAD Rentals and Leasing Recyclers	**Refurbishers, eco-committed, re-manufacturing, repurposing or IT asset disposing PCs, use PC Builder™ and Pc-Check® suites to quickly and reliably validate inbound and out-bound hardware assets for suitability of reuse, before upgrading, re-imaging and hard drive data erasing with Eurosoft's ZeroData™ Windows® drive erasure software.**
Services Break-Fix Operations Field Technicians Computer Shops Consultants	**Servicing has a wide commitment, bringing consumers and industry closer to the repair process. The full Pc-Check® suite brings portable testing to the PC with pre-boot options, multiple script creation, and recordation, reaching a variety of PCs and diverse customers. ZeroData™ Windows® securely clears data.**
Support Network Administrators I.T. Professionals Managed Service Provider Help Desk	**Support can involve deployment and online technical sessions. Preventative maintenance, secure hardware platforms and rapid diagnosis for disaster recovery is required. Each Pc-Check® program gives a fast and flexible approach to assessing hardware issues at the start, and end point of a support session.**

Flexible user and licensing options to perfectly fit your costs and needs.

Eurosoft (UK) Ltd are dedicated to offering a variety of diagnostic and test management solutions as standalone packages, bundled with systems and services, as well as site licenses of all sizes. Fully commercially supported, and maintained to test the widest range of PC-based hardware, regardless of brand. Whether you are responsible for 1, 100 or 1000+ test stations or have as many technicians at your disposal, the Pc-Check diagnostic suite offers flexible testing solutions, giving you maximum reliability over your entire operation.

Contact us at the locations below to take advantage of a new testing experience today.
