

Pc-Check® Windows® V3.5.1.5

GRADE 100% with independent system scoring. Designed for robust ITAD and repair teams, this new scoring levels the playing field, adding pure calculations to A,B,C and visual conditions mix with all scores presented neatly in the test report. **DO NOT MISS** the new BIT COMB memory test, unique to Pc-Check Windows, takes the argument out of working memory (or note). And always more updates on every diagnostic feature we develop.

Please continue to use the online eTestManager to add program updates and license terms to each of your Eurosoft USB program devices. Contact the Support or Sales team for assistance.

Awesome reminders, only Eurosoft do these...

Test more memory than other Windows-based diagnostic tools – Unlimited DIMM reporting 512Gb (W8.1) to **1TB memory** (W10, 64Bit); and **2-Exabyte drives; 256 core CPU** packages, video, and UEFI enabled hardware.

1st place – Longest running diagnostic company – 40+ years – with spectacular results from the first-on-the-scene **Micro-topology** memory testing, and our original 'self-boot' capability in 1986!

Pc-Check® Windows® features

	Benefits for You
NEW System scoring	Fully customizable, score any PC tested on condition, components, such as RAM type and size, or any test results.
NEW TPM version	Identify and test what Trusted Platform Module a system supports.
New Bit Comb memory testing	Additional testing methods to more rigorously test a systems memory by alternating bits to 1 and 0 at a range of different frequency and polarity.
Enhanced Stress testing	Improved fix media testing. The stress test has been further granulized so users can specify what type of device to stress - hard drive, SSD, or NVMe.
Updated Processor testing	Support added for AES (Advanced Encryption Standard) instructions.
Updated RAID detection	Improved RAID and drive controller IDs, display of RAID slot and added volume detection support.
Updated Windows® 11 compatibility	Confirms PC system/devices are ready for Microsoft Windows® 11 installation, as well as ensuring your chosen PC hardware meets system requirements before upgrading hardware and operating systems.
Updated CPUID	Greater test coverage for the latest hardware including support for Intel Meteor Lake and preliminary support of Arrow Lake. AMD Hawk Point and Hawk Point 2 (Zen 4/Zen 4c). NVIDIA RTX 4070 SUPER (AD104-350).

System Scoring

What condition is the case in?	Perfect Condition	2.00
What condition is the screen in?	Perfect Condition	2.00
Are there any stickers or residue on the case?	No Marks	2.00
Are the hinges functional?	Yes	2.00
Are there any pieces of the chassis or case missing?	No	0.00
Are there any other accessories missing?	No	0.00
How many USB Ports are there?	3	1.50
How many HDMI Ports are there?	1	0.50
Functional SIM reader?	No	0.00
Do the buttons all work as intended?	Yes	2.00
Keyboard backlight either not present or working?	Yes	2.00
Is the BIOS password locked?	No	0.00
Does the system come with the factory restore media or	No	0.00
Are OEM Parts in the system?	Yes	2.00
Does the system come with a box?	Yes	2.00
Is the power adapter included?	Yes	1.00
User manual included?	No	0.00
Is the system in good condition?	No	0.00

BIOS Password test

The screenshot shows the 'BIOS Password' test results. The test is marked as 'Pass' with a green checkmark. The interface includes a 'TESTING' status bar, a progress indicator, and a list of test results for various components like Motherboard and BIOS Password.

Windows® Compatibility

The screenshot shows a list of compatibility checks, all of which are marked as 'Pass' with green checkmarks:

- 64 bit Architecture check
- UEFI support check
- Compatible CPU check
- Minimum two CPU's or virtual threads
- Minimum 2 GigaHertz Speed check
- Directx Driver Display Interface version, feature check
- Secure boot support check
- GPT disk partition check
- Minimum 4GB memory check
- 64 GB free disk space check
- TPM 2.0 support check

A green 'PASS' button is visible at the bottom of the list.

Like what you see?

Combine **Pc-Check® UEFI** and **Pc-Check®**, the ultimate bare metal testing solution with **Pc-Check® Windows®**, expanding your range of diagnostics to a perfect 3-point test plan.

Combine Pc-Check® UEFI and original Pc-Check® Self-boot for the ultimate 'bare-metal' testing solution alongside Pc-Check® Windows®, expanding your range of diagnostics to a perfect 3-point test plan.

Developing intricate computer diagnostic software – *because other hardware tests miss them completely* – Pc-Check® Windows® is indispensable. Count on a continued flow of reliable test results whether building, installing, supporting or servicing computers. Pc-Check® Windows® offers the greatest support for testing a multitude of new or legacy devices both pre-boot WinPE or full Windows operating system.

Eurosoft has helped to find millions of computer failures since 1980. No exaggeration! Celebrating 40+ years — with success from our exceptional customers.

NOTE: *WinPE has reduced driver support limiting its test function. The full Windows operating system is required for certain device driven hardware.
